Transdermal CBD Patches

Patches can offer all day or night relief, with a slow release of the chosen cannabinoid throughout their period of use.

For some, this is an appealing alternative to smoking or vaporizing, which deliver effects that subside relatively quickly. In addition to this convenience, the discretion of the patch is seen as an added benefit by some.

The patch can be adhered out of sight, allowing for personal use anywhere, anytime.

Water Soluble CBD

Every good product starts with great raw material.

Our hemp extracts and distillates are made from a beautiful full flower that has been hand-selected for its quality.

We also offer isolate in bulk from these sources. All of it comes with COAs from third party labs to ensure potency, the lack of mold, pests or any other contaminants.

We work to make customized solutions for every client seeking this innovative solution. Our water soluble CBD combines nano-particle encapsulation, taste masking, and molecular bonding techniques to create a CBD offering unlike anything on the market.

We have used this technology to infuse CBD into coffee, tea, hot chocolate, water, and a variety of raw ingredients. There are several ways that we can work with you to formulate and infuse our CBD into your favorite products.

CBD Cannabinoids

Cannabidiol is a popular natural remedy used for many common ailments.

Better known as CBD, it is one of the 113 chemical compounds known as cannabinoids found in the cannabis or marijuana plant, *Cannabis sativa*.

Tetrahydrocannabinol (THC) is the main psychoactive cannabinoid found in cannabis, and causes the sensation of getting “high” that’s often associated with marijuana. However, unlike THC, CBD is not psychoactive. This quality makes CBD an appealing option for those who are looking for relief from pain and other symptoms without the mind-altering effects of marijuana or certain pharmaceutical drugs.

CBD oil is made by extracting CBD from the cannabis plant, then diluting it with a carrier oil like coconut or hemp seed oil. It is gaining momentum in the health and wellness world, with scientific studies confirming it help treat a variety of ailments like chronic pain and anxiety.

Medical research and ongoing trials are done on over 20 human diseases.

Here are commonly known and evidences have been shown on health benefits of CBD oil:

Pain relief

Anti-Seizure Properties

Combat Anxiety

Alleviate Cancer-Related Symptoms

Reduce the Risk of Diabetes
